you can shake the Ague by using AYER'S AGUE CURE. It is the one certain and infallible cure for that depleting disease. It has been tried in many countries and under various conditions, and has never been known to fail. An old veteran

"You may be interested to know my experience many years ago with Ayer's Ague Cure. The year before the war I was in Kansas. Some twenty of us were engaged in farming, and suddenly all were taken with fever and ague. We tried almost everything without getting any help, till at last I sent to the city and procured a bottle of Ayer's Ague I recovered at once. The others followed my example, and they, too, recovered. Every one in camp took the remedy and was cured by it. I went all through the war, have lived in thirteen different states of the Union, and have never had the ague since."

#### A FEW SHORT LINERS.

The Intelligencer prediction that Cincinnati would drop to second position in the big league race before the team's return to the west was realized soone than had been anticipated, Yesterday morning Bostonand Cincinnati were tied for the lead, but yesterday's results place the Beaneaters nine points in advance of the Prokupolitans. It is not likely Ewing's braves will regain the lead before their return west.

Pittsburgh was the only western tear that pulled a victory out of the east yes terday.

prises that team's local admirers,

Cincinnati's many local admirers are in the dumps these days, but maybe there are better days a-comin' when

having their stays cut and their hands cut and their hands also be a the dand helmose smelling—salted.

But the women and the men have changed radically since those days. The modern man does not admire the fainting woman, neither does he mary her. If by chance he does, he is only a man, and lives to regret it. There is no reason why any woman should be a Sainting woman. General bodily weakness and nervousness in women are due to weakness or disease of the delicate, special organs of the sex. Dr. Pierce's Favorite Prescription is a scientific and unfalling remedy for all disorders of this description. It imparts health and strength to the sensitive and susceptible organs upon which a woman's general health is largely dependent. It quiets and tones up the nerves, restores the vigor of youth, rounds out the emaciated form, imparts the glow of health to the complexion and transforms weak, sickly, nervous invalids into new, healthy, happy women. It fits for wifelbood and otherhood.

CYCLING.

T. F. Keenan, of Pittsburgh, editor of the Press, as a candidate for the presi-dency of the League of American elmen, strikes the members of that organization in the right place to make organization in the right place to make them feel happy. Potter is done for, even his best friends admit. In two campaigna he depended upon sharp politics to win, and was successful on both occasions, but it is declared that the same tactics would not win again. Anyway, the wheelmen are opposed to one man folding the reins for three terms in succession. They want a change, and Keenan, the present vice president, seems to be the best man to selice onto.

change, and Reenah, the president, seems to be the best man to selese onto.

Potter is regarded as out of the race altogether, and it is expected that he will do what he said he would—retire at the end of his term.

Kennan is understood to favor a readjustment of the funds that accrue from the payments made by the members. Instead of the hog's share going to the national body, he would have the larger portion go to the local consulates and state divisions. This is a policy that will be effective in a campaign, the members of the lesgue being of the opinion that the division of the funds along the lines followed now is contary to good judgment and is retarding the moves that the wheelmen are desirous of advancing.

There isn't any doubt about Kennan making a successful campaign. He is shrewd, full of tact, and is bound to win. Moreover, he possesses all the qualifications for a good presidency.

BOXING.

#### BOXING.

The Metropolitan club has exercised wisdom and good judgment in re-elect-ing Leslie Pearce as manager and match-maker. His selection would bring recognition to any club, and the Metropolitan after its spread out into a larger field last season, shows that it larger field last season, shows that it intends to keep up the top-notch galt. The patrons of the club may rest assurad of getting good men here this coming fall and winter, for Leslie Pearce knows the pedigree and record of every boxing aspirant in the country. He will commence at once to look up good attractions. The club missed a good thing for fair week by its apparent filsposition to go to sleep. The club met yesterday and selected its matchmaker by a vote of five to two.

OPERA HOUSE OPENING. When the flag dropped in the minstrel

When the flag dropped in the minstrel race this season, one company forged to the front and romped along so easily that "Can't lose" was all the others could say. The company which set such a killing pace at the outset is the Cleveland-Wilson Minstrels, which are now on the road with a tremendous aggregation of good things, and will open the Wheeling season at the Opera House next Monday evening. In the language of the paddock, W. S. Cleveland and George Wilson are among minstrels what stake horses would be entered among selling platers.

There was a strange suicide at the some of R. Kapner, in the Fourth ward. yesterday morning, and nothing can be learned of any cause, unless the girl was homesick. A Slav girl, with no relatives in this country except a sister who is said to live at McMechen, has lived with the Kapner family for some time. There was nothing in her actions to indicate a troubled mind or despondency, but before daylight yesterday she got got up and went to an outbuilding, looped a piece of hemp twine about as large as an ordinary lead penell around her neck, tied the other end to a beam above, and then threw her weight on the cord and continued to do so until she died from strangulation. The body was found soon after daylight. No cause is known for the action of the girl. She was saged about twenty years. The coroner made an examination but learned nothing more than above noted. with the Kapner family for some time.
